

Epson DC-13

EPSON®

This user-friendly document camera contains a range of features for the classroom, making it the ideal partner for Epson education projectors.

Bring lessons to life with this user-friendly document camera and share pictures and objects in Full HD on a large screen for the benefit of the whole class. Bursting with a range of clever features and functionality, teachers can create a dynamic environment to enhance student learning. Benefitting from a lightweight and portable design, it is easy to transport between classrooms.

Display in Full HD

Display images and 3D objects in Full HD with incredible detail for the whole class to see. Thanks to a large A3 shooting area, two full pages from a textbook can be displayed. Smooth video streaming is achieved with impressive clarity and without motion blur at 30 frames per second. Thanks to a 16x digital zoom and built-in LED light, even intricate detail can be seen. Ideal for science lessons, minute objects can be displayed on a large screen thanks to a microscope attachment.

Added flexibility

Live images and video content, including that stored on a SD card, can be output to multiple displays thanks to parallel video output. Thanks to split-screen functionality, teachers can present two pieces of content side-by-side to help highlight teaching points, such as plant and animal growth. Teachers can maintain student engagement by operating the document camera directly from the projected image at the front of the classroom, including starting and stopping video recordings.

Portable and lightweight

A lightweight and portable design and included soft carry case makes it easy to move between classrooms. With a Kensington lock and security bar, schools and education establishments can have added peace of mind when the camera is unattended or not in use.

Key Features

Epson DC-13

Epson DC-13

Product Specification

Epson DC-13

Technology

Image pick-up device	1/2.7" CMOS
Effective Pixels	1920 horizontal x 1080 vertical
Frame Rate	max 30fps

Optical

Zoom	Digital x 16
Focus	Auto
Shooting Area	A3 sized: 297 x 420 mm

Image

Resolution Output	SXGA(1280 x 1024) / XGA(1024x768) / WXGA 16:10 (1280 x 800) / WXGA 16:9 (1360 x 768) / 1080p (1920 x 1080), 480p / 720p / 1080p
