

AVerVision M90UHD

Mechanical Arm Visualiser
(Document Camera)

SEE A WORLD IN A GRAIN OF SAND

The M90UHD is a visualiser with an impressive lineup of features that include a 13-megapixel camera, 4K imaging, and a transcendent 322X total zoom capacity. These characteristics help teachers demonstrate all types of materials in an extraordinarily vivid way. What's more, instinctive function buttons, an extendable arm, and AVerTouch software allow teachers of any subject to create fantastic collaborations in next to no time.

The Only 322X Total Zoom

Equipped with a 14X optical and 23X digital zoom, the M90UHD's amazing 322X total zoom buries the competition. Every student—even the ones in the back row—can enjoy a wonderful learning journey without missing a single detail.

Splendid 4K Image Quality

Ultra HD output resolution and 13 megapixels display every subtle detail of topographical maps, chemical experiments, stereo models, and more. This clarity improves teaching quality and enhances student comprehension.

One-Push Recording, Capturing, and Playback

Intuitive recording and capturing enable users to record the complete teaching process with one button. Also, the playback function lets teachers review their lessons and examine student behavior to successfully prevent any accidents.

Massive A3 Shooting Area

A larger than A3-size shooting area captures items as big as building models. In addition, the position indicator on the camera head helps teachers always display materials accurately.

Multiple Ports Fit Any Device

With HDMI, VGA, and USB jacks available, users can connect the M90UHD to any display or computer and use the devices they're most familiar with to teach.

AVerTouch Software Take Your Ideas Anywhere

AVerTouch is ultra-powerful software designed exclusively for AVer visualisers. One touch connects your visualiser with mobile devices for content sharing, and you can sync to the cloud to automatically save annotated, captured, and recorded files. Teaching is incredibly fun when you use AVerTouch to engage with your students.
