

AVerVision M11-8MV

For Exploring the World

Designed for digital and distance learning, and perfect for using as a USB camera to shoot presenters or visualise teaching materials. A compact, upright design offers versatile utility, and diverse I/O ports meet various needs and USB for connecting to laptops for online teaching.

Key Features

Safe and Convenient Upright Design

Offering a decisive space advantage along with a weighted base, the M11-8MV decreases risk of being knocked over, with six distinct buttons making use easy.

Crystal-Clear Zoom

With 8 megapixels and a 20x digital zoom, magnify to allow students to see finer details from wherever they're sitting within the classroom space.

AVerTouch for Portable ideas

Exclusively for AVer visualisers, one touch connects with mobile devices for content sharing, with cloud sync to automatically save annotated, captured, and recorded content for future use.

A3 Shooting Angle

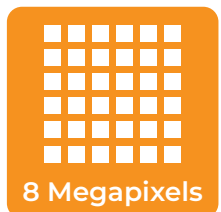

Present large documents and 3D models from any angle, using the large shooting area and rotatable camera head plus a position indicator ensures the correct display angle.

Make Your Mouse a Handy Pen

Connect your mouse to add annotations to content, transforming traditional textbooks into digital resources!

Playback for Content Evolution

Video playback allows images and videos captured by the M11-8MV to be replayed instantly and repeatedly, so you can level-up your lesson-planning efficiency.
