

Visualise the Big Picture, Wirelessly.

IPEVO VZ-X Wireless, HDMI & USB 8MP Visualiser

VZ-X is IPEVO's most versatile visualiser, which features three connection modes — Wi-Fi, HDMI, and USB. You can use it with a computer, iOS / Android devices, or directly with an Apple TV, TV, projector, or monitor in the setup that best suits your needs.

Maximum freedom in connectivity

- There are three ways you can connect your VZ-X: Wi-Fi, HDMI, and USB. You can connect directly to various devices and stream from the best spot.
- VZ-X's battery, built-in microphone and an LED light then further add to its versatility.

High performance with high convenience

- The 8 MP sensor by Sony boosted by an Ambarella system-on-a-chip (SoC) provides faster focus speed, improved noise reduction, and excellent colour reproduction.
- Control buttons on the camera's body allow you to quickly access functions like zoom, image rotation, focus, and more.

Distance Learning / Working Ready

- The camera's head can be flipped upwards and rotated, doubling as a webcam.
- Works with video conferencing software such as Zoom, Google Meet, Skype, and Microsoft Teams when in USB mode.

Specifications

Camera		Model number: 5-902-4-01-00
Megapixel	8 MP	
Resolution	Up to 3264 x 2448 in USB mode/up to 1920 x 1080 in HDMI or Wi-Fi mode
