

IPEVO V4K USB Document Camera

IPEVO

IPEVO V4K is a lightweight, foldable and affordable USB visualiser for those who like a visualiser that is as portable as their laptop. It's Plug-and-Play, and easy to use, allowing teachers and learners to take advantage of its potential.

Features

Portable and Flexible

The Multi-jointed stand makes capturing images at different heights and positions easy and intuitive, and when not in use, can be folded making it compact and easy to carry around. Materials are captured clearly even in low-light environments.

Distance Learning/Remote Working

It's also fully compatible with video conferencing software, such as Zoom, Google Meet, Microsoft Teams and Skype, which also allows you to utilise the free IPEVO visualiser software.

Convenient Built-in Features

With an 8MP sensor by Sony, the camera head can be flipped and rotated, allowing you to also use it as a webcam. There is also a built-in microphone allowing you to record lessons or attend video meetings. World's first visualiser with IntelliGo's AI-enhanced Voice technology, eliminating background noise, while maintaining the natural sound of the human voice.
