

AVerVision U70i

Portable makes Incredible Happen

The AVerVision U70i is a USB plug-and-play visualiser that helps teachers easily create hybrid distance learning experiences. The U70i features a lightweight and portable design, with premium quality lens and AI Noise Reduction microphone, allowing teachers effortlessly livestream videos of people and things at school or from home using all their teaching superpowers.

Key Features

True 4K Output Resolution

Ensuring video and images are super clear, providing an immersive experience. Hybrid distance learning is enhanced to be more engaging and accessible.

16x Zoom and A3 Shooting Area

A huge shooting area allows captured content easier for students to see every detail, with auto-focus ensuring content is clear, enhanced by a 16x digital zoom, for a closer look.

User-Friendly Function Buttons

Convenient and efficient camera control at the camera head meaning all settings are right at your finger tips, letting you focus on the capturing.

Convenient Storage and a Non-Slip Design

The camera storage is convenient, protecting the device from damage, with the anti-slip rubber base providing a stable platform to capture from.

AI Acoustics and Image Rotation

AI Noise Reduction efficiently reduces unwanted sounds and background noise capturing better audio quality. AI Image Rotation ensures images are always displayed at the correct angle.

Free AVerTouch Software Enhances Remote Teaching

Connect with one touch to share content and annotate as you go, with Cloud sync gives automatic backups, enriches teaching with unprecedented interactivity, further enhanced connecting to AVerTouch software.
